

## **TECHNONIKOL plant in the Rostov region increases the export of stone wool by 52%**

*The enterprise expanded the geography of supplies and exports of stone wool.*

"Since 2017, the production of TECHNONIKOL plant in the Rostov has been exporting to Azerbaijan, Armenia, Georgia, Abkhazia, and the Republic of Belarus. The enterprise continues to provide stone wool to consumers in the Southern, Central and North-Caucasian federal districts, as well as in the Crimea. We reached full production capacity through responding to the needs of domestic and foreign markets. In 2017, the increase in exports of stone wool reached 52%, "- commented Vyacheslav Abakunov, the director of the enterprise.

The plant in the Rostov region was launched in 2016. Its annual production capacity is currently of 1.3 million cubic meters of finished goods, and is planned to be increased by 2,5% until the end of 2018. The increment in production will mostly aim at providing export supplies.

Currently, the "Plant TECHNO" produces 157 items of stone wool, as well as technical insulation. In 2018, the product portfolio will be will be enlarged, with a fundamentally new product preparing to be launched.
